

YESSI SITANGGANG

+62 81263280007 | ysitanggang096@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Tapanuli Utara, Indonesia

Informatics graduate candidate from Del Institute of Technology with experience in digital product development, system requirement analysis, and cross-functional collaboration through projects, organizations, and internship programs. Experienced in translating user and business needs into mobile and web solutions, supported by knowledge of UI/UX, databases, REST API, and Functional Specification Document implementation. Demonstrated leadership as a Scrum Team Leader, lecturer assistant, student mentor, and organization member, strengthening communication, team coordination, problem-solving, and user-driven decision-making skills.

Education Level

Del Institute of Technology - Laguboti, Indonesia

Jul 2022 - Sep 2026

Bachelor of Informatics, 3.52/4.00

- Completed thesis defense, awaiting official graduation

Work Experience

PT. Tera Multi Wahana – Bekasi Selatan, Indonesia

Aug 2025 - Dec 2025

Developer Intern

- Developed and enhanced 50+ features for the Distributor Management System (DMS) by translating Functional Specification Documents (FSD) into reliable application features aligned with business requirements and company coding standards.
- Built and improved frontend and backend components using Flutter, Dart, and C#, while utilizing SQL Server Management Studio (SSMS) to validate data integrity, perform complex queries, and support debugging activities.
- Collaborated with system analysts and support teams in a cross-functional environment to ensure smooth feature implementation, requirement accuracy, and effective issue resolution during the development process.

PT. Suzuki Finance Indonesia – Jakarta Timur, Indonesia

Jun 2025 - Aug 2025

Mobile Developer Intern

- Developed the SMILE module for the SUFI ONE mobile application using Flutter and Dart, delivering a structured digital solution to support marketing staff in managing dealer visits and field reporting.
- Built core features such as direct visit, task visit, and history visit, while implementing bearer token authentication to ensure secure and controlled system access.
- Improved the marketing reporting workflow by streamlining visit data entry and supporting more efficient dealer activity tracking through a user oriented mobile interface.

Zonaebt.com (PT Bala Biotech Indonesia) – Remote Working

Jun 2025 - Aug 2025

Frontend Developer Intern

- Developed the ZonaEBT carbon calculator website from scratch using Laravel, translating carbon footprint calculation requirements into a functional and user accessible digital product.
- Implemented calculation logic based on scientific formulas and transformed complex carbon data into clear, informative, and easy to understand visual outputs.
- Collaborated with UI/UX and research teams to design a responsive interface and refine the user input flow, improving usability, calculation efficiency, and overall user experience.

Del Institute of Technology - Laguboti, Indonesia

May 2024 - Nov 2024

Research Team Member

- Contributed as a Research Team Member in a CNN-based study using MobileNetV3 for facial skin disorder classification by supporting dataset collection and preparation to assist model development and analysis.

Del Institute of Technology - Laguboti, Indonesia

Aug 2023 - Apr 2024

Assistant Lecturer of Basic Mathematics I & II

- Conducted weekly tutoring sessions for Basic Mathematics I & II students, covering material reviews, guided discussions, and problem-solving exercises to strengthen students' conceptual understanding.
- Coordinated with the main lecturer to monitor student progress, identify learning difficulties, and provide constructive feedback and academic support.

Selected Project Experience

Sistem Informasi Manajemen Bimbingan Mahasiswa dan Perwalian (SIMBA) – Project

Jan 2025 - May 2025

Scrum Team Leader, Frontend Web Developer, Frontend Mobile Developer

- Led the Scrum team to deliver the SIMBA web and Android applications within a five-month timeline by driving task execution, tracking progress, and aligning the team toward user-focused project goals.
- Developed responsive and user-centered frontend interfaces for the SIMBA web and Android applications using Laravel Blade, CSS, JavaScript, and Kotlin, covering key features such as violation tracking, merit points, counseling, and academic advising.
- Maintained product consistency across web and mobile platforms by adapting the web interface into an Android-friendly experience, improving navigation, data presentation, and usability for student monitoring activities.

Sistem Informasi Tingkat Akhir (SITA) Website – Project

Nov 2024 - Dec 2024

Scrum Team Leader, Frontend Web Developer, Web Designer

- Led the Scrum team in delivering a web-based Final Project Management System within one month by managing sprint timeline, planning, backlog, execution, review, retrospective, and daily scrum documentation through Coda.
- Designed an intuitive user interface using Figma and translated the design into responsive web pages using CSS and Laravel Blade to support students, supervisors, examiners, and coordinators in the final project process.
- Delivered the project according to project requirements, improving process visibility and user accessibility for final project management, and achieved an A grade for project excellence.

Organizational Experience

The General Election Commission of the Informatics Student Association - Del Institute of Technology

May 2024 - Nov 2024

Member

- Managed election documents, candidate data, voter lists, archiving, and reporting to support transparent and well-organized student election processes
- Coordinated schedules and administrative preparation for campaigns, debates, and voting activities to ensure smooth event execution.

Student Leadership Program (Kakak Asuh) - Del Institute of Technology

Aug 2023 - Sep 2024

- Led and guided 5 foster siblings by living with them and teaching them dormitory life and academic subjects
- Assisted the dormitory head in maintaining rules and cultural norms in the dormitory by ensuring cleanliness, promoting table manners and leading the 'Group of Growing Together'
- Supervised students in their daily activities, conducted performance assessments, provided activity instructions, and served as a mentor and advisor

Skills & Certifications

- **Product & Business:** System Requirement Analysis, Digital Product Development, User-Centered Design, Business Process Understanding, Functional Specification Document Implementation, Agile/Scrum, Sprint Planning, Backlog Management.
- **Technical Skills:** HTML, CSS, JavaScript, Laravel Blade, Flutter, Dart, Kotlin, C#, REST API Integration, SQL Server, MySQL, PostgreSQL, Firebase, Git, GitHub, Figma, Coda, Responsive UI Design.
- **Soft Skills:** Leadership, Communication, Team Coordination, Analytical Thinking, Problem-Solving, Critical Thinking, Adaptability, Initiative, Ownership, Resilience, Collaboration, Time Management.
- **Certification & Learning Achievements :**
 - Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — **Oracle**
 - UI/UX Research and Design: Fullstack Intensive Bootcamp, Batch 15 — **MySkill**
 - Business Analysis & Process Management — **Coursera**
 - Meningkatkan Kecerdasan Copilot dengan RAG & Fine-Tuning di Azure — **Microsoft Elevate**
 - Introduction to Data Analysis using Microsoft Excel — **Coursera**
 - Completed Dicoding Front-End Web Developer Learning Path, covering basic web programming, frontend fundamentals, and intermediate web development through project-based learning — **Dicoding**
